

## **STATEMENT OF PURPOSE**

### **RS19215**

The provisions of Idaho Code 18-1359 have raised concerns about the propriety of offering employment to the spouse of the president of one of Idaho's public institutions of higher education. The purpose of this legislation would be to provide that the employment of the president's spouse by a postsecondary institution is not a violation of any of Idaho's ethics laws.

### **FISCAL NOTE**

There would be no additional fiscal impact to the State General Fund, aside from that already appropriated to the institutions for personnel costs.
